“In Love”

I think about you all the time.

Especially, when you are not with me.

If I leave you behind, I cannot continue until you are beside me.

When I am sitting down, I need you near me.

I love to touch your face and wrap my hands around your body.

The thought of losing you bring tears to my eyes.

Yes, it is true. I am in love with you, my cell phone, my digital device.
